## MEASURE AUTOMATION SUCCESS WITH REAL-TIME BUSINESS METRICS

In this Digital Age, where IT is relied upon to make key decisions and operate faster than the speed of business, nothing is more important than using data to drive insights and decision making. Establishing a source of truth through a real-time business dashboard allows organizations to measure outcomes, champion automation, and promote an automation-first mentality. Showcasing impact tangibly can drive cultural shifts in organizations and reinforce positive outcomes, catapulting them into operational excellence.

### METRICS AVAILABLE OUT OF THE BOX:

**Time savings:** Report on time savings achieved by automation with the ability to drill down into the most effective workflows

**Cost savings:** Quantify automation impact with cost savings and top cost saving automation workflows

**Top cost-saving workflows:** Drill down into specifics with an interactive dashboard. For example, results can be filtered by top cost-saving workflows in the last month

**Trends:** Glean insights on top savings and execution trends on key KPIs recorded
